The Green Team is a voluntary organisation, working with young people to improve and enjoy wild places. We offer a range of projects throughout the year carrying out practical conservation and having fun.

Since 1995 over 5000 young people have been involved with the Green Team. Projects are run by volunteer leaders and Green Team staff. Working together, we improve the local environment for people and wildlife. The opportunities we offer enable young people to increase their understanding and appreciation of the natural world and global issues that can seem overwhelming to us as individuals. Participants learn about the countryside, gain confidence through working as part of a team and can achieve a range of awards.
